Spanish

Education

Boston University
B.S. Biomedical Engineering 2015

Software Experience

General Assembly
Boston, MA, Dec. 18 - Current
Web Development Immersive
- Completed a 12-week / 480+ hour immersive course on full-stack web development using a variety of modern programming languages and technologies.
- Built quality RESTful APIs and integrated data from third-party APIs.
- Designed and built multiple web applications using MVC frameworks.
- Utilized Git and Github for version control.

Developer Projects

TicTak
- Web application allowing users to play a game of tic-tac-toe locally.
- Interacts with a third-party API to store player information, games, and moves made.
- *Tech used: JavaScript, jQuery, HTML, CSS, Sass, and Bootstrap*

GLYPHS
- Full-stack application allowing users the ability to view font types in real-time.
- Users have the ability to save and organize their favorite fonts.
- *Tech used: JavaScript, Handlebars, jQuery, HTML, CSS, Bootstrap, Ruby, Rails, SQL, and PostgreSQL.*

Stumblr.
- Led and organized a group of four web developers to create a full-stack application.
- Blogging website for users to create and view other user's blogs and comments.
- User profiles, blogs, and comments are saved by the API built in the back-end.
- *Tech used: JavaScript, Handlebars, jQuery, HTML, CSS, Bootstrap, Node.js, MongoDB, Mongoose, and Express.js.*

Capstone (React)
- Full-stack single-page application that allows developers the ability to view desired fonts in real-time.
- Users have the ability to save and organize their favorite fonts.
- *Tech used: JavaScript, Handlebars, jQuery, HTML, CSS, Bootstrap, Ruby, Rails, SQL, and PostgreSQL.*

Additional Experience

Hologic, Inc.
Marlborough, MA, Aug. 17 - Dec. 18
